GOVERNOR HOLCOMB AND THE SOLDIERS.

A determined effort has been made by the democratic state central com-mittee to respond the minds of the which time it is quite certain they Governor Molecond is opposed to the soldiers and sallors having their lobs seth when they return from the war. The Idea is to show him up he diehose who are making the greatest sactifice by favoring those was stay at their construction be used in hastenhome with their lobs. But the effort all revolves about a distortion of the more needed vessels, ships which are said: 'Upper and lower classes must doesn't need this type. facts relative to a bill introduced in the last legislature which provided the terripe should be guaranteed re-

This bill was voted by Governo Tolerms because, as shown by the text of the veto printed elsewhere, the governor believed that it was unjus marimies to state employes what rould not be guaranteed to employe of private corporations. erre the country should be treated allike wrote the movemor at that time meaning that every soldier or sailer sught to have his job back on his return and that a few who are in the employ of the state elieuld not be entitled to pairantee of such restoration to th emission of the tellows who worked in B. grocery store, an office or factors and innamuch as those not engaged in state employment could not be given work a greateness by the benklature ! aught not to be given to the special

When he tells the boys that "the state will belong to them" on their return he unquestionably speaks for the entire commonwealth They are certain to get not only their old jobs back, or the equivalent, but in most cases it is likely to be fome thing better. They are not going t be forgotten just because an fronclad guarantee has been withheld from a term that a special class of insiders might not be established,

THE AIRCRAFT REPORT.

Charles E. Hughes, by the exhaus tive report which he has made rela tive to the aircraft work in this coun try, makes it evident that the troble which existed in that branch of the government service had been to a large degree remedied before he wa called upon to start the investigation. Since being placed in charge of the well known captain of industry John D. Ryan a different state of affairs has existed and the right kind of progress

Previous to that important change the delays and wastes follower defective organization and the lack of P proper guidance by the officials who were responsible. The charge that the initial appropriation had been spent without being able to show anything for it is unfounded. There have been wastes and delays which have been costly with the chief loss coming from the abandonment of two types of air planes after \$34,000,000 had been spent upon them. The report shows howover, that the attention which was called to the business of productor sirplanes has resulted in the correction of the faults and it is cause for gratification that the conditions which were found were not any worse or in fact as bad, as had been intimated. The report therefore shows the situation

CANCELLING SHIP CONTRACTS.
It is not to be supposed that there is not to be supposed that th

must be continued without abatement and it will not be possible to permit any relaxation in that direction until long after the war.

It has been found that many of the woolen vessels which have been built can be used for the transportation of coal be necessary to spend the thirty million or more planned for coal barges for that purpose. It has like wise been determined that inasmuch as the transports which were to be constructed on the California coast could not be completed until 1926 by which time it is quite certain they will not be required for that work, and

It is taking Germany quite a while to decide to do right, now that it has found out that it cannot longer continue as it would like to.

The best evidence that can be given of the willingness of the kaiser to refluence his crown is for him to do it. These are days of deeds, not words.

The pleas of the central powers, the statements of those who ought to know and the cutting off of contracts all point to the early conclusion of the language with the point to the early conclusion of the language with the little acrobat of the given him as my winter favorite. The commander of the Black sea fleet probably understands that he has no Kiel canal into which he can dodge when he sees the allied fleet heading in his direction.

What is wanted at this time is men who will stand by the country, and it has been fully demonstrated that republicans can be relied upon at all times for this service.

The attacks which have been made upon Governor Holcomb are those which simply make him stronger not only in his own party but among the people of Connecticut in general. that the mercy they are now hoping to excite for themselves has no abid-ing place in their hearts. Germany's murderers and thieves should be pun ished for their crimes. The punish-ment should fit their crimes.
